Ministry of Education and Science of Khabarovsk Territory Regional state budget professional educational institution "Komsomolsk-on-Amur College of technologies and services"

#### **Regional Bilingual Conference in Russian and English languages "English in my specialty"**

#### Theme: "English language in specialty of mechatronics and mobile robotics engineer "

**Done by:** Svetlov Roman Nikolaevich **Work supervisor:** Panina Alexandra Valerievna

# «Mechatronics and mobile robotics technology (by industry)»

## What is "mechatronics"?

- The word "mechatronics" is a combination of the terms 'mechanical' and 'electronics'
- Mechatronics is a junction for merging of concepts between mechanical engineering, electrical engineering, and computer science to design, create and operate products

### What is mechatronics?

#### The purpose of the project is

- to prove that English plays an important part in the profession of mechatronics engineer
- to show the necessity of English, especially its technical terminology

## Tasks of the project are

- to consider what the specialty of mechatronics and mobile robotics includes
- to understand why technical English is needed in this field of activity

# The urgency

Modern lifestyle makes more and more demands from those people who want to move with time: mobility, computer skills, knowledge of foreign languages
No doubt that learning of English is very important for specialists

# The use of English in my profession

- Understanding of terminology
- Choice of professional tools
- Reading of technical documentation
- Communication with customers
- Study of professional literature
- Online courses and webinars

worldskills

компетенция «Мехатроника»

# Why is English important?

Most of the equipment which is used in mechatronics is made abroad and all markings are done in English

Why is English important? English language is needed for professionals in mechatronics industry for competent communication on General topics with English-speaking partners

## We asked 50 students of mechatronics and mobile robotics specialty

# **Do you consider English is necessary for a mechatronics specialist?**

4%

 Students who understand the necessity of English
 Don't care about English

# What do you do to improve your language skills?

# Conclusion

 English is very important for mechatronics specialists

• It is necessary to motivate students to learn English

# Thank you for attention!
